

Earth *Wise*®

Tree Free™

100% Compostable

hoffmaster®

TERMS AND DEFINITIONS

- **Tree Free:**
Earth Wise® Tree Free™ products are an alternative to tree-based and recycled products. Tree Free means these items are 100% wood pulp free and come from sustainable resources, which quickly renew in 12 months or less and are 100% compostable.
- **Sustainable:**
Meets the world's needs today without compromising the ability to meet the world's needs tomorrow.
- **Bagasse:**
A natural by-product of sugar production.
- **PLA:**
Polylactic Acid, which is a compostable thermoplastic derived from corn.
- **CPLA:**
A nature-based Nature Works® plastic made from corn and certified 100% compostable. Similar to PLA, CPLA is made from Polylactic Acid with a Copolymer added.
- **ECF:**
Processed Elemental Chlorine Free, which is a bleaching technique that uses chlorine dioxide rather than elemental chlorine, which is harmful to the environment.
- **TCF:**
Processed Totally Chlorine Free means that no chlorine or chlorine compounds of any kind are used in the bleaching process. Instead, papers are whitened using oxygen, ozone and/or hydrogen peroxide. TCF whitening methods have none of the harmful environmental impacts of chlorine.
- **Compostable:**
An item is compostable if the material can be put back into the ground to make soil, mulch, or fertilizer. Materials should break down in a matter of three months to one year in municipal and industrial composting facilities.
- **BPI:**
Biodegradable Products Institute is a well-known certification for compostability and Hoffmaster® tableware products are all BPI certified.
- **ASTM D6400:**
Plastic-like materials are certified for full composting in municipal and industrial facilities.
- **ASTM D6868:**
Paper-like materials are certified for full composting in municipal and industrial composting facilities.
- **Cedar Grove:**
A nationally recognized composting facility. Hoffmaster® is pursuing this certification.
- **GMO Free:**
No Genetically Modified Organisms

OTHER INDUSTRY TERMS

- **PSM:**
Plant Starch Material is synthesized from different vegetable starches and is not 100% compostable.
- **Biodegradable:**
Material is able to decompose or break down on its own in one year or less, which essentially means the item will disappear. The Federal Trade Commission is monitoring such claims because when the primary method of disposal is landfills, basically nothing degrades. Claiming something is biodegradable is considered deceiving and not acceptable. Hoffmaster® wants to help eliminate confusion and be responsible with their marketing claims. That's why our products are tested and certified as compostable.

EARTH WISE® TREE FREE™ PRODUCTS BY HOFFMASTER® ARE:

- 100% Tree Free (no wood pulp).
- Sustainable (resources renew in 12 months or less).
- Affordable.
- Processed either Totally Chlorine Free (TCF) or Elemental Chlorine Free (ECF).
- 100% compostable.
- Recyclable, where facilities are available.
- Packaged using recyclable or Tree Free materials.
- Printed or embossed with the Earth Wise® Tree Free™ logo so your patrons know you made a sustainable choice.

Hoffmaster's Earth Wise® Tree Free™ napkins are the only napkins in the world that are 100% Tree Free. These napkins are an affordable alternative to tree-based and recycled napkins and truly go beyond green!

Earth Wise® Tree Free™ Napkins by Hoffmaster®:

- Have an upscale and unique embossing that tells customers you made a sustainable choice.
- Are extremely soft and absorbent so your customers will only need one napkin.
- Are 100% Tree Free, which means that there is no wood pulp used to make the napkins so all the resources used quickly renew in 12 months or less.

Hoffmaster's Earth Wise® Tree Free™ containers are an affordable alternative to plastic or foam containers. All containers are 100% compostable in municipal and industrial composting facilities.

Earth Wise® Tree Free™ containers by Hoffmaster® are:

- Heavyweight so they can be refrigerated, microwaved and stored for up to 36 hours without breaking down or losing their shape.
- Designed with lids that snap on easily and are tabbed for quick separation and handling.
- User-friendly because all lids have a unique stackable design and are sold separately.
- Leak-proof with a double tab snap closure.

Hoffmaster's Earth Wise® Tree Free™ containers are the perfect alternative to tree-based, plastic or foam containers.

Earth Wise® Tree Free™ containers by Hoffmaster®:

- Have an extremely high heat tolerance of 212°F, which allows you to put hot contents like marinara or nacho cheese in the soufflé portion cups!
- Include a PLA laminated sushi container that keeps food moist so it can be prepared and stored up to 36 hours in advance.
- All have a unique upscale design and the lids are stackable.

Hoffmaster® CPLA Cutlery:

- Is certified as 100% compostable in municipal and industrial composting facilities.
- Has a high heat tolerance of 212°F and is standard size.
- Is available as a cutlery and napkin kit. Contents and wrapper are 100% compostable.
