Our paper straws are...

- FDA Food Grade Compliant approved.
- Non-toxic, BPA-free and we have independent 3rd party testing to prove it.
- Our straws are Cedar Grove® certified compostable.

### Drinking Straw
- **7.75” Length**
- Water, Soda, Tea and Alcoholic Beverages
- 0.23” OD
- White and Black, Wrapped and Unwrapped

### Drinking Straw
- **10” Length**
- Water, Soda, Tea and Alcoholic Beverages
- 0.23” OD
- White, Wrapped

### Giant Straw
- **8.5” Length**
- Smoothies, Shakes, Soda and Alcoholic Beverages
- 0.375” OD
- White and Red/White Stripe, Unwrapped

### Boba Tea Straw
- **8.5” Length**
- Boba - Bubble Tea
- 0.50” OD
- Assorted Pack: Hot Pink, Yellow, Bright Lime and Turquoise Stripe
- Unwrapped

### Milk Straw
- **5.75” Length**
- Milk, Water and Juice
- 0.23” OD
- White, Wrapped

### Cocktail Straw
- **5.5” Length**
- Alcoholic Beverages and Juice
- 0.23” OD
- Black, Unwrapped

### Coffee Stir
- **5” & 7.5” Length**
- Center Crease
- Black and Red, Unwrapped

### Bar Stir
- **5.75” & 7.75” Length**
- Alcoholic Beverages and Juice
- 0.18” OD
- Black and White, Unwrapped

### Flex Drinking Straw
- **7.75” Length**
- Water, Soda, Tea and Alcoholic Beverages
- 0.25” OD
- White and Green/White Stripe, Wrapped
COMPLIANCE

FOOD SAFE - FDA
Inks used for printing on the surface of our drinking straws have been tested, certified and are guaranteed acceptable for direct contact with food products, in accordance with the applicable chapters and sections of Title 21 of the Code of Federal Regulations (21 CFR).
In addition, a safety assessment has been conducted, and based on the toxicity testing results; the conclusion provides added evidence that all chemical components used are proven to be safe as tested by the Health, Environmental, & Regulatory Services of Intertek USA, Inc. Additionally, all raw material and process components used are free of any fluorochemicals/fluorinated compounds.

SUSTAINABILITY
The vast majority of material used in the composition of these products is in compliance to Forest Stewardship Council (FSC) or Sustainable Forestry Initiative (SFI). This paperbased material comes from a sustainably managed forest with chain-of-custody procedures in place.

COMPOSTABILITY
Sample product was submitted to an independent source for substrate review. The evaluation was successful in verifying the product meets the untreated paper substrate requirement for its acceptance in commercial composting processes and is verified to be fluorine free.

BIODEGRADABILITY AND MARINE DEGRADABILITY
Hoffmaster® uses natural cellulose paper as the primary material of the paper drinking straw. Paper, being a natural fiber, is universally considered to be inherently biodegradable and is supported as such by organizations such as the San Francisco Food Service Ware Ordinance. Hoffmaster® straws, being made of paper, naturally degrade in oceans, rivers and lakes and are safe for marine life. All plastic straws, including biodegradable and compostable plastic straws, pose a serious threat to the marine environment as their fragments do not degrade and remain in the ocean, able to be ingested by marine organisms. Hoffmaster’s durable straws reduce plastic pollution by breaking down quickly in most environments.

Did you know?
Plastic straws are made of polypropylene, a petroleum by-product & the same stuff that fuels our vehicles.

All plastics, including bio-plastics, plant-plastics, and PLA plastics are harmful to the marine environment.

Each day we use 500,000,000 straws; enough to fill 46,400 large school buses per year.

Plastic straws are among the top 10 debris items. 44% of all seabirds & mammals have ingested plastic.

90% of all trash floating in the world’s oceans is comprised of plastic.

In the last 25 years, 6,263,213 straws and stirrers were picked up during annual beach clean up events.

**MILK STRAWS**

- **5.75” White Milk Straw**
  - Item #: 600253
  - Description: White Paper Milk Straw, Wrapped
  - Size: 5.75" x .23"
  - Case Count: 3,200
  - Inner Pack: Bulk

**FLEX STRAWS**

- **7.75” White Flex Straw**
  - Item #: 600264
  - Description: White Paper Flex Straw, Wrapped
  - Size: 7.75" x .25"
  - Case Count: 3,200
  - Inner Pack: 8/400 Chipboard

- **7.75” Striped Green Flex Straw**
  - Item #: 600265
  - Description: Striped Green Paper Flex Straw, Wrapped
  - Size: 7.75" x .25"
  - Case Count: 3,200
  - Inner Pack: 8/400 Chipboard
Great for hot or cold beverages. Great for mixing drinks such as coffee, tea, mixed drinks, cocktails, hot chocolate, etc. Perfect for restaurants, bar supply, coffee shops, concession stands, schools or office break rooms.

</table>
There's no getting around it: PLA straws pollute the same way plastics do. They don’t break down in landfills, and they end up in our waterways. PLA straws are not recyclable and actually contaminate the other plastics that are recyclable. If you cannot consume a beverage without a straw, paper straws remain the most viable, environmentally friendly option for restaurants, venues and establishments.

PLA straws are known as a sustainable alternative to plastic straws. But disposing any type of PLA, bioplastic or “plant-based” plastic straw is no different than throwing away a regular plastic straw.

Hoffmaster Paper Straws are 100% biodegradable and marine friendly.

In a normal waste stream, PLA straws react exactly like plastic straws. It’s almost impossible for them to decompose in a landfill, and if they do, it can take 1,000+ years.

Hoffmaster Paper Straws can decompose in just 45-60 days.

If PLA straws go into the waterways or oceans, they become “regular” plastic, which is harmful to marine wildlife and fish, endangering them or even killing them.

Hoffmaster Paper Straws are earth and marine friendly, naturally degradable, FDA/EU compliant, and compostable.

PLA and bioplastics only break down when all oxygen is removed, and temperatures are constantly above 140 degrees Fahrenheit for at least 10 days. This occurs in a commercial composting site only.

Hoffmaster Paper Straws require no special environment or conditions to break down safely.
